EDUCATION

Indian Institute of Information Technology Bhagalpur

Bachelor of Technology in Computer Science and Engineering

November 2022 – July 2026

Bhagalpur, Bihar

CGPA: 7.82 (Absolute)

RELEVANT COURSEWORK

- Data Structures
- Algorithms
- Operating System
- Database Management
- OOPS
- Computer Networking
- Software Engineering

TECHNICAL SKILLS AND INTERESTS

Languages: C/C++, HTML, JavaScript, TypeScript, Python, SQL

Tools/Platform: Git, Github, VS Code, Sublime, Compass, Cloudinary, Linux (Ubuntu), Workbench

Technologies/Frameworks: React.js, Express.js, Node.js, Rest API, MongoDB, MySQL

Soft Skills: Communication, Active listening, Critical Thinking

Area of Interests: Software Development, Algorithm Design

EXPERIENCE

Deccan AI

December 2025 – Present

Software Development Intern

- Developed **TerminalBench**, a performance benchmarking platform to evaluate VM and container network throughput.
- Automated **artifact extraction (unzipping)**, log parsing, and aggregation of latency, bandwidth, and packet loss metrics.
- Engineered a **contamination detection module** to validate benchmark integrity and prevent corrupted test results.

Labmentix 

August 2025 – October 2025

Web Developer Intern

- Developed an **Intern Dashboard** for managing profiles and tasks using **React.js**, **Tailwind CSS**, and **JavaScript**.
- Configured **RESTful APIs** to fetch and update data, ensuring smooth communication between frontend and backend.
- Engineered **authentication and role-based access control** to secure intern and admin functionalities.

PROJECTS

TutorGrid | *React, Vite, Node.js, Express, MongoDB, Tailwind CSS, Stripe, Clerk* |  

July 2025 – August 2025

- Engineered a full-stack e-learning platform **TutorGrid**, empowering tutors to design and publish courses while enabling students to enroll, stream lectures, and monitor learning progress effectively.
- Integrated a **secure Stripe payment gateway** for smooth transactions, instant payment processing, and real-time purchase validation with enhanced reliability.
- Developed intuitive **role-based dashboards** for tutors and learners, offering personalized course insights, detailed progress tracking, and efficient management tools.

Job Bridge | *React, Vite, Express, MongoDB, Node* |  

January 2025 – February 2025

- Engineered dynamic and responsive student and admin portals using **React.js** and **TailwindCSS**, ensuring seamless navigation and enhanced user engagement.
- Implemented secure and efficient **JWT authentication** with robust role-based access control, improving data security and user management.
- Improved scalable and maintainable **RESTful APIs** in **Node.js** and **Express.js** to handle job postings, applications, and admin workflows effectively.

ACHIEVEMENTS / EXTRACURRICULAR

- Solved **1100+ problems** on **LeetCode**, **CodeChef**, and **CodeForces**, enhancing **DSA skills** [@priyanshu-2003](#).
- Achieved **4-star rating** on **GeeksforGeeks** for strong **DSA and competitive programming skills** [@priyanshu2003](#).
- Secured **Rank 12** out of 40+ teams in the **Internal Smart India Hackathon (SIH)** for **innovative solution** .
- Placed in the **top 7.15%** among 35K+ participants in **LeetCode Weekly Contest 432**, demonstrating **proficiency**.
